THE ENGINEER KILLED

Shot by a Robber When His Order Was Not Obeyed.

A SUCCESSFUL HAUL

The Bandit Robs the Express, Rifles the Mail and Terrorizes the Passengers and Trainmen and Makes His Escape.

Missoula, Mont., Oct. 25.—The east bound passenger train on the Northern Pacific was held up late Thursday night near Drummond, a place forty-five miles from this city, by one man and Engineer Dan O'Neill was killed. O'Neill had been in the service of the road longer than any other engineer.

The train, which included mail, baggage and express cars with nine coaches, left Missoula at 10:20 p. m. It arrived after midnight at a place two miles west of Drummond. Here the train was signaled to stop and the engineer accordingly obeyed. While slowing up he saw a man creeping toward him over the tender. The man who was armed called to O'Neill to stop the train instantly. The engineer took in the situation and attempted to pull open the throttle in order to start the train at full speed. The robber divined his purpose and fired at him. The shot took instant effect and the engineer fell dead at his post.

The robber after the train stopped proceeded to rifle the express and mail cars. He plundered the regular mail and blew open the safe in the express car which was wrecked by the explosion. The amount of plunder which he secured is not known but it is supposed to be large.

The excitement on the train was intense. The sudden stoppage of the train, followed by the explosion spread alarm among the train hands and the passengers. The darkness of the night and the loneliness of the place added to the terror.

Word of the attack was sent to Drummond and blood hounds were sent out and steps were taken to capture the man.

The robber boasted that he took part in the hold-up of the Southern Pacific train near Portland, Ore., about a year ago. He made this boast to the train hands to terrorize them while he employed them to run the train after the robbery about four miles.

The Northern Pacific has offered a reward of \$5000 for delivery, dead or alive, of the robber and murderer.

The mask worn by the bandit was found on a mountain trail two miles from the scene of the hold-up and after giving the hounds the scent of the mask the animals immediately took up the trail which was then about eight hours old.

Buried Treasure Found.

Llano, Tex., Oct. 25.—Julius Hollwig of this place lately sold a piece of property in Fredericksburg on which was a log house built by the early German colonists of 1857.

An iron pot was found under the house last week while workmen were tearing it down and scraping the ground. The pot was hidden from view and contained \$1700, of which \$1500 was in German money, probably some brought over from the old country by the early settlers and forgotten, as cholera made great ravages the first year and many of them fled or died.

Want a New Courthouse.

Corsicana, Tex., Oct. 25.—After four weeks of work, at which every member was present every day, the grand jury adjourned Friday to Dec. 1, having returned 165 bills, 57 of which were felonies. Before adjournment the grand jury passed a resolution condemning the courthouse and asking the citizens to vote for the \$150,000 bond issue for a new structure.

Two Serious Accidents.

Brenham, Tex., Oct. 25.—Joe Jackson fell 35 feet from the top of a pecan tree Wednesday, fracturing his leg and died from the effects of the fall.

William Lange was the victim of an accident at his home near New Widen, resulting in a badly broken arm, which may have to be amputated to have his life.

Bearded Woman Dead.

New York, Oct. 25.—Mrs. William Donovan, 37 years old, who traveled with a circus as "the bearded lady," is dead at her home in Brooklyn. She was born in Virginia and had visited every civilized country in the world.

Bishop Vaughan Dead.

London, Oct. 25.—Right Rev. Dr. Vaughan, D. D., bishop of Plymouth, died at Newton Abbey, Devonshire. Dr. Vaughan was an uncle of Cardinal Vaughan.

Well Known Novelist Dead.

San Francisco, Oct. 25.—Frank Norris, the novelist, died here as a result of an operation for appendicitis performed three days ago.

SOME WILL DECLINE.

Bitter Feeling Engendered in the Recent Disturbances in the House.

London, Oct. 25.—So bitter has become the feeling of the recent disturbances in the house of commons, that several of the older members privately declared they would not seek re-election. In response to the vigorous declarations by some of his supporters, who regard their peace of mind as superior to political considerations which involve rowdiness, Premier Balfour promises to exercise closure with a stronger hand than he ever before attempted. The benefits to be derived from this course is doubtful, as the Nationalists have shown ingenious mastery over the difficulties of the house of commons procedure, and much irritation is felt on the government benches over the fact that Mr. Balfour's new rules, which were intended to expedite business, have tended to delay it. The severe application of the closure also tends to produce vigorous protests on the part of the Liberals, who, under such circumstances combine forces with the Nationalists. How speedily "mother parliaments" is legislating at present can be judged from the fact that in seven days' debate only eleven lines of the education bill have been adopted.

NO ARTICLE OF FAITH.

Dr. Hirsch Declares His Disbelief in the First Chapter of Genesis.

Chicago, Oct. 25.—At the Temple of Israel Dr. Emil G. Hirsch declared his absolute disbelief in the first chapter of Genesis, and bade his congregation discard it as an article of faith.

"Religion, biology and astronomy," he declared, "have each given evidence that make it impossible to believe that the world was created in six days. It is impossible, also, to give serious consideration to the efforts that have been made to reconcile science and religion."

"All nations," said Dr. Hirsch, "have their idea of the creation of the world, and in every case the creation of the world has been ascribed to their favorite Gods. The world has gradually progressed from polytheistic to monotheistic ideas, and there is no doubt that the first chapter of Genesis is simply a relation by some Jewish writer of the stories told by the Babylonians which the Jews had carried from their captivity in Babylon six hundred years before Christ."

Religious Enthusiasm in Trouble.

London, Oct. 25.—The Sun says that George Martin, a clergyman, has been remanded at Southwark police court here charged with having one pound of gunpowder in his possession with felonious intent. He proved to be a religious enthusiast, who objected to the erection of a stand around St. George's church, in this borough, and who purchased a small quantity of gunpowder, insufficient to do real damage. He will probably be placed in an asylum.

Follows Roosevelt's Steps.

Paris, Oct. 25.—Premier Combes held a conference here with the national commission of the miners' federation, and the latter agreed to submit the demands of the miners to arbitration. M. Combes will next consult the delegates of the companies. The action of the French premier is regarded here as evidently being an emulation of President Roosevelt's intervention in the coal strike in the United States.

More Collieries Working.

Wilkesbarre, Oct. 25.—A number of additional collieries in the anthracite coal region have started up and those that were put in operation are gradually increasing their output. At Mitchell's headquarters but few complaints were made outside of the Lehigh region, where individual operators and their old employees have had trouble ever since the men reported for work on Thursday.

Pardoned by the President.

Washington, Oct. 25.—The president has pardoned Joe Martin. He was convicted in the western district of Arkansas for the murder of Ernest Adams and was sentenced to be hanged, but President Harrison on July 30, 1888, commuted the sentence to life imprisonment in the Ohio penitentiary, where the prisoner has been confined ever since.

Chinese Minister Honored.

New York, Oct. 25.—Chao Chu, son of Wu Ting Fang, the Chinese Minister, has donned a uniform and is drilling with a rifle, says a dispatch from Atlantic City. He is attending school here and has been admitted to membership in the Morris Guards, the crack military organization of South Jersey.

Cigar Dealers Kicking.

New York, Oct. 25.—Retail cigar dealers of this city have effected a temporary organization for the stated purpose of opposing the passage of the combination stores which recently have been spread over the entire city, and which old dealers claim are underselling them through their ability to secure reduced rates from the manufacturers.

ABOUT KNOCKERS.

Every town and every enterprise that ever amounts to enough to attract attention has "knockers" to contend with in greater or less numbers. Some of these are intentional and malicious in their efforts, while others are misguided calamity howlers, and know not what they do. Those first mentioned are generally few in numbers and comparatively without influence, and their efforts would amount to nothing unless backed up by the "unintentional knockers." Of these there are now a few in Bryan getting in their work right along, to the serious detriment of the town and their own interests. For the want of a better name they may be called the "Afraid-of-the-Future Club." While at present realizing a handsome income on their investments and business, their minds are filled with dire forebodings and their tongues busy with baleful prophecies for the future. The first impression of strangers who come to town and talk with such misguided persons is doubtless to take to their heels. We have heard of one instance where a gentleman came here with money to invest in building rent houses, and having heard a lot of talk like this he gave up the idea. But anyone who will take the trouble to look around will find there are no grounds for alarm regarding the future of Bryan. This city has enjoyed a continuous building boom for more than two years, and in spite of the fact that it is still going on, there are not rent houses enough to supply the demand. The writer knows of instances where three families are living in one house, and of one traveling man who has been for ten days trying to secure a house so he can move his family to Bryan. Every day there are applications for rent houses that cannot be supplied. There are no vacant business houses, and the handsome store house now being finished for Dr. J. W. Howell has been rented and will be occupied

by a wholesale grocery house—Carson, Sewall & Co., of Houston, who will open a branch house here.

In view of the crop conditions prevailing in this section of the state, the amount of cotton received this fall and the trade enjoyed by our business men has been large, and greatly in excess of that which has been enjoyed by other towns. It is reasonable to suppose that a part of this trade will be cut off after this year by the railroad going to Madisonville, but the development of the country will soon replace whatever temporary loss is sustained. Bryan has a reputation as a trading point and carries stocks and assortments of goods that attract buyers from a distance residing on the railroads now in operation. Only two days since wagons were loaded with lumber at one of the local yards that came within four and six and a half miles respectively of two of our best neighboring towns. With the maintenance of good dirt roads and continued enterprise on the part of our citizens, there is no reason why Bryan's trade should not continue to build up.

Bryan's splendid schools also attract hundreds of pupils here annually and form a basis of continued growth and prosperity as well as intellectual development.

Property values are stable and desirable locations are becoming hard to obtain at any price. Rents are also in the prosperity column. In other words, if Bryan lags behind in the march of progress it will be the fault of her own people, and especially of the knockers, who have no more discretion and judgment than to cry down their own town.

To hold her own Bryan will have to wake up along some lines. One of this is a better water supply. We have already outgrown what we have, and an artesian well has become a necessity to the further development of the town. Another thing Bryan will have to do is to arrange somehow to make a market for all kinds of diversified farm crops, fruits and vegetables. Good men are now leaving the county because this has not been done and there seems no immediate prospect of it. This town should have a canning factory, even if it has to be operated without any profit, by a company composed of the business men of the town. These industries of the farm

UNDERWEAR

BLIZZARDS!

are liable to prevail at any moment now. You can't stop them but YOU CAN LAUGH at them if you come here at once and fortify yourself with some of our WINTER UNDERWEAR. Delays are dangerous, so come at once and get your supply. We sell GOOD Underwear at

25c and 50c

per garment. We offer fleeced lined shirts and drawers in an excellent quality, soft and agreeable to the touch—all shades, and from 75c to \$1.50 per garment. You can get any kind you want either in wool or cotton—no matter what price you pay the garments are made up right and they fit, and fit in underwear means comfort—come in time.

HUNTER & ...CHATHAM.

can be made self sustaining in a few years if they are aided properly at the outset, and Brazos county can be made as famous for fruit and truck as east Texas. There are other things needed which can be added from time to time, but the two mentioned occur to the Eagle to be imperative needs.

These things may be easily secured by combined effort, and if you are not willing to help, don't be a knocker.

Getting on to Mally.

We publish the following from the Florence Vidette as an illustration to our farmers of what a hard proposition they are up against in the weevil problem:

"To illustrate how hard it is to head off the boll weevil we will relate a little story told us by one of the laborers at the big gin. He said between times that he was busy at the gin stands, he was reading one of Prof. Mally's reports on weevils. Being called to some work, he put his pamphlet down and was gone some time, and when he returned he discovered that the book was open just two pages ahead of where he was reading and that a large weevil was walking down the lines where it told about the trap rows, as if he knew his business, and proposed to keep posted on all such matters. No use to try to down bug like that."

Following paragraph appeared in the report of a superintendent of a Burgher camp at the cape: There have been no deaths this month, but there have been three births. We are therefore three to the good. This satisfactory state of affairs is due to the untiring energy of my assistant.—Honolulu (H.T.) Mirror.

The Central Texas Fair was a grand success in every particular. The business men of Bryan succeeded in all their undertakings. Bryan is the fastest growing and most successful town in Central Texas. We believe the people who attended the fair last week will agree with us.—Madisonville Meteor.

PETROLEUM OF TEXAS

Government Officials Makes Report on Beaumont Field.

FLOW IS UNEXCELLED

The Experts Say it is as Good as the Famous Fields of Baku, Russia. The Estimated Yield is Given and Value of Rig.

Washington, Oct. 25.—The Texas-Louisiana oil field was discussed in an exhaustive report of the United States geological survey. The existence of petroleum in the gulf coastal plane extending inland for from 50 to 100 miles has been known as far back as 1860. The conclusion reached with regard to Spindletop field was that Spindletop oil rock contains about one-fourth of its volume of oil. Even if the estimate of one barrel obtained for every twenty-six cubic feet for Spindletop and a little less for other fields, there should be a yield equal to the Baku in Russia and much greater output than that of any other American field. The yield of the Baku field has been estimated to equal about one-fifth of the volume of the rock. Petroleum stored in tecton limestone of the best producing limestone in America has been estimated at about 10 per cent of the rock, and the statement is made that smaller portions of the best Pennsylvania fields have yielded 900,000 barrels per square mile. The report says that the apparent consensus of opinion among the chemists who have examined the field is that the gulf coast petroleum is unsuited for the production of illuminating oil, and that it is doubtful if it can be made to yield good lubricating oil on a commercial basis. Its value as a source of asphalt and gas oil are as yet undetermined. Experiments seem to establish both its availability and its economy as a generator of steam. Whether the Beaumont petroleum may be successfully used in metallurgical processes has not yet been settled. The combined tankage of steel and earthen tanks of Beaumont is at the present time about 7,500,000 barrels.

The estimate of the average daily flow of the 162 wells is not to exceed 10,000 to 12,000 barrels. The total production of crude petroleum in the Beaumont Spindletop field, including oil wasted from wild gushers and from other wells, local consumption of oil held in tanks and oil shipped away, from beginning of 1901 up to May 31, 1902, is estimated at 11,688,000 barrels.

The value of well material, tanks, tank cars, pipe lines, pumping stations, refineries and wells producing, drilling and abandoned, is estimated at about \$7,740,000.

On Dec. 31, 1901, the number of wells abandoned was 26; of producing wells, 131, and of wells drilling 46; a total of 203. On May 1, 1902, there were 52 wells, 240 producing wells and 60 wells drilling; a total of 352.

Operation Was Successful.

New York, Oct. 25.—An autopsy over the body of Mrs. Annie Kingsley who was the subject in an operation at Bellevue, when the surgeons placed six stitches in her heart, shows that the wound had healed perfectly and that her death, several days later, was due to septic poisoning caused by the unclean knife blade with which she was stabbed. It is charged by her husband. The doctors found that the cavity of the left ventricle which was pierced, was absolutely tight—that is, the walls had united as a result of the operation. Without it she would have bled to death in a very short time. The poisonous blade caused inflammation of the muscles and arteries of the heart.

Army Ordered Reduced.

Washington, Oct. 25.—A general order to the army has been issued announcing that by direction of the president the organization of enlisted strength of the army under the reorganization act of February 2, 1900, shall be reduced to 56,989.

Dr. Cayley Dies of Wounds.

Butte, Mont., Oct. 25.—Dr. H. A. Cayley, who was shot, it is alleged, by Editor Kelley of the Inter-Mountain, Oct. 11, died here. Kelley has been confined in jail for some time.

from Bryan where she spent several
days.—Hearne Democrat.

Mr. and Mrs. Phillip Andrews left
yesterday for Blum, Texas, where
they will reside.

Several new styles in the famous
W. L. Douglas shoes for men and
boys at Norwood's. 78

New crop home made ribbon cane
syrup 50 cents a gallon at the Bryan
Grocery Co. 82

Mrs. Fannie Bumpass of Kosse
left yesterday to visit at Lufkin.

Mrs. J. Allen Myers left for Kerr-
ville, Texas, yesterday.

100 fine traveling trunks at Nor-
wood's Cash store. 279

Notice.

All parties holding bills against
the fair association are requested to
hand them in to the secretary not
later than Monday afternoon for ap-
proval at the meeting of the board of
directors Monday night.

It Paul Bradley, Sec.

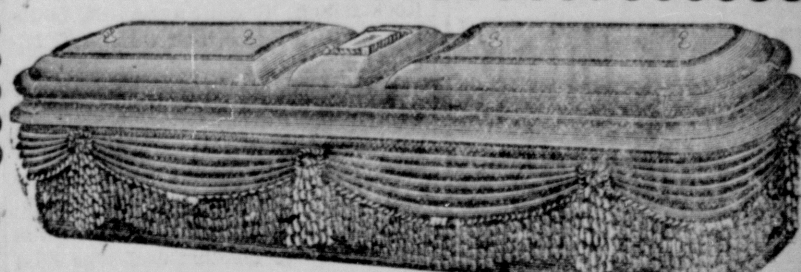

If you appreciate a work of art,
send 15c in stamps to S. F. B.
Morse, P. T. M., Houston, Texas,
and receive by mail postage paid,
a picture of one of the California
Big Trees, size 14 by 28 inches,
richly colored and showing a troupe
of cavalry standing within its di-
ameter. These trees are a puzzle
to scientists, and the picture will
convey a comprehensive idea of the
grandeur of the big tree forest of
Maricopa. The artist has been
particularly happy in his selection
of tints, and this picture will form
a very desirable addition to any
collection. 285-3

DAILY HACK SERVICE

From Bryan to Madisonville. The patronage of the public respectfully requested. Leave calls or messages with the undersigned or at the Postoffice.

S. W. Buchanan.

There is just one week left within which interest can be paid according to law, though it is received until next March, provided the receipts are not issued and the records not posted before that time.

The interest payments will be extremely heavy from now until after Nov. 1, and not light for a month or two. Some of the purchasers have dropped into the habit of paying interest late in the year, when the law specifically says that it shall be paid on or before Nov. 1. These late payments are received and credited up to the time of the promulgation of the list of lands forfeited for non-payment of interest, but if they are ever questioned in the courts it might be held that titles had been invalidated by failure to comply with the law by paying the annual interest before Nov. 1.

There are only 35,000 land accounts in good standing, upon which this interest is paid, and inasmuch as it does not go over \$700,000, one can appreciate how small are the amounts of each interest payment. For this reason the treasurer is kept busy signing postal money orders and Austin exchange papers. These accounts require so much bookkeeping that it is months before the clerical force catches up after the season of deluge.

TO THE SOUTHWEST.

Three Railroads Making a Move to Bring Immigrants Here.

Chicago, Oct. 25.—The subcommittee on the southwestern lines to arrange for the colonization of the southwest held a meeting at Chicago Friday, those present being John Sebastian, Rock Island; Bryan Snyder, St. Louis and San Francisco, and George T. Nicholson, Santa Fe.

It was decided to recommend that George D. Haven, formerly general passenger agent of the Chicago and West Michigan railroad, be made general emigration agent of the Southwestern Emigration bureau. He was present at the meeting and suggested that agencies be established in all eastern states and in Europe. The rate probably will be fixed at one fare plus \$2 for the round trip, though at the present time lower rates are being made to Texas points, owing to a war between the Southern Pacific and the Missouri, Kansas and Texas.

Heretofore emigrants have been going almost exclusively to the northwest, owing to the low rates offered by northwestern lines. Much of this business, it is believed, can be diverted to the southwest.

Believed Fell Asleep.

Cameron, Tex., Oct. 25.—On Tuesday morning about 2 o'clock Pearl Williams, aged 14, was killed by a northbound passenger train on the San Antonio and Aransas Pass railroad at Cones Crossing between Minerva and Rockdale. Justice Kennon of Rockdale held an inquest and found the facts about as follows: "Monday Mrs. Clark Nevils, aunt of the girl, got her to stay with Mrs. Nevils' children while she went to Rockdale. She did not reach home until about 10 o'clock and found Miss Pearl awake. Mrs. Nevils discovered that she had lost a purse with \$51 in it, and she and the young girl walked toward Rockdale in search of the money, and found it at the railroad crossing. The aunt stopped to pick some grass spurs out of her dress and the girl sat down on the railroad track, and it is thought dropped off to sleep. A fast train came upon them and the girl was killed."

Black List Suit.

Dallas, Oct. 25.—G. W. Hendy has filed suits here in the district courts against the Missouri, Kansas and Texas Railway company of Texas for damages aggregating \$26,100. The plaintiff alleges that he has been damaged in the sum of \$15,000 by the defendants putting him on a "black list," and sending out that "black list" to a number of other railroads, the effect being, so he states, that he is wrongfully deprived of an opportunity of earning a living at the occupation for which he is most fitted, since the things alleged in the "black list" against him are untrue. Plaintiff also asks the court to issue an order for the delivery of the lists for destruction, and to enjoin the defendants from ever issuing a copy of the same.

Divided the Cargo.

Kingston, Jamaica, Oct. 25.—The newspapers here print reports from the Gayman Islands, B. W. I., saying the American schooner Golden Rule arrived here recently with a cargo of supplies taken from Colon secretly under instructions to land them at certain points on the Colombian coast in which revolutionists were awaiting them. The captain and pilot, according to the reports printed after sailing, became alarmed and took their valuable cargo to Cayman Islands, where they divided it. The captain is quoted as saying he could not return with his cargo to Colon because he had declared his vessel to be in ballast when he cleared from that port.

Health of Havana.

Havana, Oct. 25.—Dr. Finlay, chief of the sanitation department, commenting upon the health conditions of Havana during the month of September, says the death rate here was 17.86 per 1000.

With the end of September a full year was completed since a case of yellow fever originated in this city. This is an event which stands unparalleled.

Emperor William will arrive in England on Nov. 8, and by that time it is expected King Carlos of Portugal also will be the guest of King Edward. There is every reason to believe that the meeting of the three monarchs will result in an important international understanding, especially as regards South Africa, and more particularly Delagoa bay, which is so vitally important to Great Britain as an outlet for the newly acquired colonies. The Portuguese government appears willing to transfer some portions of its South African territory to British rule. Germany, however, is understood to be strenuously opposed to the trade securing such an advantage; at any rate, unless Portugal is willing to placate Germany by granting her some similar concessions, and it is believed that before the emperor and King Carlos leave England a bargain will be arranged.

Added to the Commission.

Washington, Oct. 25.—President Roosevelt has announced that he has designated Commissioner of Labor Wright as an additional member of the coal arbitration commission. Col. Wright will continue to sit as recorder of the commission.

Many Cattle Dying.

Gonzales, Tex., Oct. 25.—Judge Glass received a telephone message from Dr. J. K. P. Green of Rancho, Thursday, stating that five fat cattle were dying in great numbers from some unknown cause. A telegram was sent to Gov. Sayers and it is probable that a state official will be sent to investigate the cause.

Neely's New Plans.

Munice, Ind., Oct. 25.—Charles F. W. Neely has abandoned his plans to return to Cuba, and will make Munice his home. He says for a time at least he has abandoned his demand upon the United States government for the \$6000 taken from him at the time of his arrest.

"I do not mean that I have given up all hope of recovering the money, but think it inadvisable to push my claims at present," he explained. He left here for Missouri, where he owns two or three zinc mines, and will from there go to California to join his wife.

New Physical Director.

Dallas, Oct. 25.—C. F. Darnaby, who for three years has been the physical director of the Young Men's Christian association at Houston, has been asked to the same work for the Dallas association. At a meeting of the board of directors of the gymnasium committee, recommended Mr. Darnaby, and he was called to the position of physical director. State Secretary Lewis was requested to visit Houston and present the Dallas call. Secretary Wynne received a telegram from Mr. Lewis Friday saying that Mr. Darnaby would accept the call. The directorship of the gymnasium has been vacant since F. E. Miller left.

Frick Found Dead.

Dallas, Oct. 25.—Shortly after 5 o'clock Friday afternoon James H. Frick, son of Adolph Frick, 218 Bryan street, was found dead, with a fearful gunshot wound in the neck just below the chin. The wound extended clear through the neck. The young man was 27 years old. Justice Skelton, acting as coroner, began an inquest, and will conclude it today. No one was present when the death occurred and no statement concerning the matter could, therefore, be obtained.

Rockefeller's Gift to Columbia.

New York, Oct. 25.—At a meeting of the trustees of Columbia university it was announced that John D. Rockefeller had offered to give \$500,000 to the college provided the college could raise \$190,000 to pay off the debt of the institution and \$250,000 besides. It is announced also that Mr. Rockefeller makes the gift as "thanks offering to Almighty God" for preservation of himself, his family and household from fire which recently destroyed his country home at Pocantice Hills.

Asks Germany to Explain.

Peking, China, Oct. 25.—Prince Ching, president of the foreign office, intends to ask Germany to interpret "invidious stipulation" regarding the evacuation of Shanghai by foreign troops as embracing all China, thus removing the implication that the Yan Tse Kiang valley was threatened by British schemes of aggrandizement. As the Germans are pleased with the agreement as it stands, it is doubtful if Germany will consent.

Vaults Dynamited.

Fort Worth, Tex., Oct. 25.—Safe blowers entered the vault of the Casey Swasey company here by use of dynamite Thursday night and succeeded in getting valuable jewelry, some silverware, stocks and bonds, deeds and insurance policies, the property of private individuals. The firm suffered no loss, except the damage to the vault and a safe.

Whittier Homestead to Be Robbed.

New York, Oct. 25.—The Whittier homestead at Haverhill, which was damaged by fire last week, will be restored on exactly the old lines. The ancient furniture and desks of his grandfather on which Whittier wrote the first verses and, as it happened, also the last poem he ever wrote, go back where it stood two generations, and perhaps three, before his birth.

Bishop of Salina.

Philadelphia, Pa., Oct. 25.—Rev. Sheldon Munson Griswold, rector of Christ Episcopal church at Hudson, N. Y., was elected missionary bishop of Salina, the western district of Kansas, by the House of Bishops.

SECTIONS COLLIDE.

Two Engines Demolished, Fireman Cremated and Part of Train Burned.

Chattanooga, Oct. 25.—A disastrous freight collision occurred on the Cincinnati Southern railroad at Oneida, Tenn. A through northbound freight was running in two sections. The first section was standing on the main track at Oneida when the second section crashed into the rear of the first section.

Both trains were "double-headers." The two locomotives of the second section were demolished and several cars derailed. The wreckage caught fire and Charles Hurt, white, fireman, was cremated. Both locomotives and fifteen cars were burned.

Two residences, two store buildings and a tool house near the track caught fire from the wreck and were destroyed.

Two Trainmen Killed.

Little Rock, Oct. 25.—Conductor J. W. Turner and brakeman J. F. Brennan were killed at the crossing of the Choctaw, Oklahoma and Gulf and the Cotton Belt railroads east of Little Rock. Choctaw freight train No. 83 telescoped Choctaw freight train No. 81. The latter train stopped at the crossing and No. 83 crashed into it around a curve. Turner and Brennan were in the caboose of No. 81 when the crash came. They were instantly killed.

Run Over by a Train.

Luling, Tex., Oct. 25.—Dave Cubit, a small negro boy of this place, was run over and instantly killed by the eastbound passenger train. He was attempting to jump on the train when he lost his hold and fell, the wheels passing over the lower part of his body, horribly mangle him.

NEWS IN BRIEF.

Business failures for the past week were 232, against 240 last year.

The striking dock laborers at Dunkirk, France, have returned to work.

John Evans, a negro, was hanged at Richmond, Va., for wife murder.

Frank Morris, the novelist of San Francisco, who underwent an operation for appendicitis, is dead.

Galveston, Tex., sent fifteen naval recruits in one day to the navy.

Hood county, Texas, is planting apples, pears, plums and peaches by the hundreds.

Miss Gertie Nye of Guthrie, O. T., committed suicide by taking morphine.

Sam Knox of Canton, Tex., while out hunting, was accidentally shot through the wrist by his gun being discharged.

N. A. Gardner of Mount Pleasant, Tex., dropped dead while weighing some cotton at the cotton yard.

Ben Sommers, a constable at Humble, Tex., was shot from ambush and badly wounded. He came near dying from loss of blood.

Thieves broke into F. Gallman's grocery at Paducah, Ky., and stole \$200. Another gang got into Brack Howell's place at Hazelwood, a few miles from Paducah, and took about \$100.

A young boy named Gerth was found hanging in a stable near Cypress, Tex.

N. M. Mitcheler, aged 24 years, of Greeley, Kan., was struck by a Denver and Rio Grande freight train at Colorado Springs, Colo., sustaining injuries which resulted fatally.

Sam Dodson of Waxahachie, Tex., was given five years for killing a convict.

Miss Lulu McCarthy of Houston, Tex., committed suicide by drinking carbolic acid. Ill health was the cause.

Lawrence Ragan of Nacogdoches, Tex., was given two years for bigamy. The Homeopathic association of Nebraska denounces kissing, saying it is an unsanitary practice.

Mrs. Kreebs of Jerome, Ia., killed her husband because he threw a bucket of water on her while she was asleep.

Mrs. Ellison of Georgetown, Tex., aged 83, is dying of injuries received in a passenger wreck at Lewis.

Isaac Dorsey, a negro, was shot and killed by Hughey, the mate of the steamer Kate Adams, at Helena, Ark.

George Ceek, a well-to-do farmer living east of Queen City, Mo., committed suicide by hanging himself.

Cracksmen made a successful raid on the postoffice at Bippus, Ind. They secured about \$300 worth of stamps and cash.

At Belgrade, Neb., safe crackers blew open three safes, securing \$200 at the Union Pacific depot, \$125 at the postoffice and \$160 at Cooley's lumber yard.

Thomas E. Rider, a colored miner, was killed by Charles Russell, a fellow-workman, at Gray's shaft, near Springfield, Ill.

Mrs. Will Koffel of Akron, Ind., committed suicide by taking rough on rats. She was about 30 years old and was threatened with insanity.

Harvey Martin, Wilmar Martin, Ed Berry and James D. Berry, the counterfeiters recently arrested in Mokane, Mo., pleaded guilty to the charge of counterfeiting and were sentenced to six months at hard labor.

Mrs. Sarah Robly was killed in a runaway accident at Centerville, Ia. She was 60 years old and of prominent family.

Monitor Wyoming at her trial trip at San Francisco exceeded her contract speed.

The apple crop of the United States for 1902 was 43,000,000 bushels against 27,000,000 bushels last year.

Simon Raphael, 106 years old died at New York City.

The tax assessment of President Roosevelt at Oyster Bay, N. Y., is \$40,000.

The American Railway association will hold its next semi-annual session in April at New York City.

The ministers at Paducah, Ky., are preparing for a local option election.
